IoT software developer
December 2020 until now（2 years and 6 months）

Adaptive Agrotech　　　　　　　　　　　　　　　　　Germany

This company operates in the field of digital agriculture.
By using IoT equipment, it allows farmers to monitor soil moisture, temperature, light and air pressure, and by analyzing data, increase crop productivity and prevent potential damage.
I do data storage and retrieval, dashboard design, chart display, and connection to the ThingsSpeak site, and various types of reporting.

Senior Software Developer at Mahex（Control, Monitoring, Automation）
April 2017 until now（5 years and 2 months）

Mahex（Mahan Air Express）　　　　　　Iran Tehran

Separation of several thousand parcels per day and sent to all parts of the country in a fully mechanized and automatic system.
Weighing and dimensioning in motion
Conduct depending on the destination gate by the conveyor and so on.
Major Client are DigiKala.com - Bamilo.com - Saipa - Islamic Republic of Iran's Post.
In this project, I am the supervisor of the software development team in the fields of control, monitoring and automation

Semi-mechanized light sorting project in Isfahan Tipax hub
October 2021 until November 2022（1 month）

راهکار سازان آوان　　　　　　　　　　Iran Isfahan

This project was designed and built with the aim of reducing costs, time, reducing manpower error and speeding up the process of separating the parcels.
Project specifications:
Capacity: 3000 parcels per hour
Output variety: 20 gates + 2 rejected gates
Has monitoring tools; Reporting and connecting to various types of Web APIs

Hamedan pedestrian bridges monitoring and maintenance system
June 2020 until August 2020（2 months）

Municipality　　　　　　　　　　　　　Iran Hamedan

Monitoring and maintenance system of all pedestrian bridges in Hamadan, which are equipped with escalators and elevators.
Each bridge is defined as a node in the system.
It is also possible to open and close the electric shutters remotely and in a scheduled manner in the system dashboard. Breakdown time is logged to the service to measure the quality of service.
All communication stuff, database design, UI and backend were done by me.

Smart Archive Warehouse
September 2015 until April 2017（1 year and 7 months）

Tilco　　　　　　　　　　　　　　　　　Iran Hamedan

C# Programmer

UT Programmer
Intelligent archive warehouse
Ability to save and archive any type of documents, any size and size without having to search the shelves.
Instead of going to the shelf, documents come to you in deep or carouseling mechanizem

The worst search time is only 7 seconds
The benefits of this kind of archive are speed, capacity and security

Installed at Ahwaz National Drilling Company - Tehran Shahid Baniar - Tehran Teak Institute and ...

About Me   2020

Hey, I am Peyman, THE PROGRAMMER; I do like programming��, and I like to share my ideas with others. My vision is to touch, inspire and influence; through our ideas, services and products to make the world a better place, pixel by pixel, line of code by line of code, experience by experience. With passion!
